HEAL

2023–2024

Before the words came colour.
Before the answers, a mark on canvas.

Heal is where my painting began: instinctive, raw and open to whatever appeared. A series about finding a language for what we cannot always explain.

NEW CHAPTER

2024–2025

Some chapters begin before we feel ready.

In New Chapter, layers are covered, revealed and reworked. The paintings move between letting go and holding on, between what has been and what might still become.

WHAT REMAINS

2026

A change of place. A change of light.
And everything we carry with us.

Created in Corsica, What Remains explores the traces that stay visible as life moves forward. Each painting leaves space for the viewer to find their own.
